Extension page: <http://ecommerce.aheadworks.com/magento-extensions/admin-grid-thumbnail.html>

The Admin Grid Thumbnail extension is here to help store owners and administrators display thumbnails in the product grid.

This extension allows you to insert images to products grid in the Magento admin.

Installation

1. Backup your web directory and store database.

▼ [Click to view details](#)

You can make backup copies with any tool you find appropriate

If you are going to use the native Magento backup function, navigate to System -> Tools -> Backups and perform System and Database backups

2. Log in to the Magento backend

3. Disable compilation

▼ [Click to view details](#)

Navigate to System -> Tools -> Compilation.

If Compiler status is Disabled, you can skip to the next step

If Compiler is enabled, disable it.

IMPORTANT: after the extension is installed, you can enable the compilation again; **IT IS CRUCIAL** that you use "Run Compilation Process" function, not just "Enable button"

Installing an extension with the Compilation enabled will result in store downtime.

4. Flush store cache

Click to view details

You can flush the store cache in 2 ways:

- via the backend:

Navigate to System -> Cache Management menu, and click Flush Magento Cache button

Cache Type	Description	Associated Tags	Status
Configuration	System/config.xml, local.xml and modules configuration files(config.xml)	CONFIG	ENABLED
Layouts	Layout building instructions	LAYOUT_GENERAL_CACHE_TAG	ENABLED
Blocks HTML output	Page blocks HTML	BLOCK_HTML	ENABLED

- via filesystem:

On your server, navigate to Magento root folder, then proceed to `/var/cache/`; delete all the content there.

5. Download the extension package from your account and extract the downloaded archive

6. Copy the content of `/Step_1/` folder to your store's root directory

7. Copy the content of `/Step_2/` folder to your store's root directory

8. Flush store cache again; log out from the backend and log in again.

Configuration

Go to System > Configuration > Admin Grid Thumbnail

Troubleshooting

After the extension installation the store gives an error, or blank page, or suggests starting Magento installation procedure.

Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

There is no aheadWorks extensions under my configuration section, or having the extension tab clicked I get a blank page, or Access Denied error.

Clear the store cache, browser cookies, logout and login again.

I've set up everything correctly, inserted the HTML code but there is nothing on that page.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.

My configuration changes do not appear on the store.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.
