Thank you for choosing us!

Installing Featured Products by Category

To install Featured Product by Category for Magento 2 follow the steps below:

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run

```
bin/magento module:enable Neklo_Core
bin/magento module:enable Neklo_Reindexer
bin/magento setup:upgrade
bin/magento setup:static-content:deploy
bin/magento setup:static-content:deploy
```

How to enable Products by Category Extension?

To enable the extension for display, go to 'Stores > Configuration > Featured Category Products Widget'.

1. Choose 'yes' value in 'Enabled' file.
2. Click 'Save Config' to apply the changes.

General Settings Tab

There are a few more management options in the General settings tab located at 'Stores > Configuration > Featured Category Products Widget > General settings'.

1. Choose a number of items to be displayed in the Featured Products widget on the storefront.
2. Set Cache Lifetime in seconds for the extension.
3. Click 'Save Config' if you altered any values.

The screenshot shows the 'General Settings' configuration page for the 'Featured Category Products Widget'. At the top, there is a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. On the left, a sidebar lists 'GENERAL' (selected), 'NEKLO', 'Featured Category Products Widget', and 'Instagram Pro Widget'. The main content area is titled 'General Settings' and contains three settings: 'Enabled [store view]' set to 'Yes', 'Number of items in list [store view]' set to '30', and 'Cache Lifetime [store view]' set to '3600'.

How to add products to the Featured List?

To configure the list of the featured products, perform the following actions:

1. Go to 'Products > Categories'.
2. Choose category you want to choose the featured items from.
3. Scroll down to the Featured Products tab.
4. Set the filter value to 'Any' in the Category Products grid.
5. Mark the products you want to be featured with a tick in the left column.
6. Click 'Save' to apply the changes.

Storefront Properties

The Featured Products Widget is displayed at 'Content > Widget'. To determine how the widget will look at the storefront, go to the Storefront Properties. There you can change the following settings:

1. Enter the widget title that will be displayed on the backend in the Widgets Grid.
2. Assign Featured Products extension to the Store Views you use.
3. Choose sort order for the widget in the container that has other widgets.
4. Click 'Save' to apply the changes.

Layout Updates

To configure where the Featured Products block will be on the Category page:

1. Go to 'Content > Widgets > Choose the Featured Products widget > Storefront Properties'.
2. In 'Display on field' you can choose a category or any other page in the store to display the widget.
3. To specify the place on the page to add the widget, choose the value you need in the Container field.
4. To define how the widget will function for the customers, choose 'Grid or Carousel' in Template.
5. If you need a different widget layout for a specific page, click 'Add Layout Update'.
6. Click "Save" to apply the layout updates.

Widget Options

To get access to the internal widget settings:

1. Go to 'Content — Widgets — Choose the Featured Products widget — Widget Options'.
2. To enable the Featured Products Block to be visible on the store page, choose 'Yes' value in the Is Enabled field.
3. Change the name of the Featured Products Block on the storefront in 'Block Title'.
4. Choose number of the products to be displayed simultaneously in 'Number of Products in view'.
5. Set the limit number for the products to be displayed in this exact widget in 'Number of items in list'.
6. Enable or disable showing navigation bullets and buttons. They can be shown at the same time.
7. To change the order in which the products will be displayed in the block, choose the value you need in Product list sorting.
8. Change cache lifetime by default for the widget chosen. Otherwise, the default value from General Settings will be used.
9. Click Save to apply the changes.
