## Installing Share Buttons

To install the Social Share Buttons for Magento 2 by NEKLO follow the steps below:

1. Unpack the zip file provided into the root folder of your Magento 2 installation.

2. From a command line run:

```
bin/magento module:enable Neklo_Core
```

```
bin/magento module:enable Neklo_ShareButtons
```

```
bin/magento setup:upgrade
```

```
bin/magento setup:static-content:deploy
```

---

## Introducing Share Buttons

To enable the extension, log into your Admin Panel and go to Stores > Settings > Configuration > Neklo Tab > Social Buttons Widget > Is Enabled.

The screenshot shows the 'Configuration' page in the Magento 2 Admin Panel. At the top, the title 'Configuration' is displayed. Below it, there is a 'Store View' dropdown menu set to 'Default Config' with a help icon. The main content area is titled 'General Settings' and contains a section for 'NEKLO' with an expandable arrow. Underneath, the 'Share Buttons Widget' is listed. To the right of the widget name, there is a label 'Is Enabled' followed by a dropdown menu currently set to 'Yes'.

## Widget Configuration

### Widget Settings

To configure the Social Share extension for Magento 2 you need to move to Content > Widgets > Add New.

The screenshot shows the 'Widgets' configuration interface in the Magento Admin. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main area is titled 'Widgets' and contains a 'WIDGET' sidebar with 'Storefront Properties' and 'Widget Options' tabs. The 'Storefront Properties' tab is active, showing the following configuration fields:

- Type:** [NEKLO] Share Buttons
- Design Package/Theme:** Magento Luma
- Widget Title:** Re[1]: Без темы
- Assign to Store Views:** A list box containing 'All Store Views' (selected), 'Main Website', and 'Main Website Store' (with 'Default Store View' listed below it). A help icon (?) is visible to the right of the list.
- Sort Order:** 1

Below the 'Sort Order' field, there is a small text label: 'Sort Order of widget instances in the same container'.

## Storefront Properties

At the StoreFront Properties tab you can:

- Title the widget;
- Assign the store view for a widget;
- Define the widget priority on the page;
- Set up the widget layout:
  - Specify the pages where the widget will be shown;
  - Select the widget position within a page.

## Button options

The Widget Options tab contains the button settings.

- Choose the icon type: square and round variants are available;
- Decide whether to use the colored icons or the monochrome ones;
- Name links in the tooltip with a page title or a custom name.

Activate particular social services if needed or leave some of them inactive.
